kiss me she said
you're so dangerous
don't pull away
don't pull awaykiss me she said that girl again
you're dangerous so hazardous to me

you're so obscene you're fabulous
it's your life don't shoot it upi am the drug that you need
shot me up shoot me up
i am all that you need
you pull away you pull away
disastergia tell me why you're punk rock
with a knife a masochist with attitude
go to another shoot the rash blinds
you cant talk your fallin down
this cant walk your outta time
you're outta luck what a face
i am the drug that you need
shoot me up shoot me up
i am all that you need
you pull away you pull away
