Void

Controller

You can't know your real mindAs long as you deceive yourselfRegardless of what we doOur hearts know the truthThis path is difficultFor those who have lost their wayFreeing oneself, from words is liberationFreeing is liberationDon't lose your wayFear is a lieEmotions lack the truthTo pave the way to fearWhen we return to the root, we gain meaning
When we pursue and lust, we lose all reason
The moment we become enlightened
We go beyond the void
We go beyond.....the void
