Lean On You

Instruction

Sad that I feel that we're wasting away 'cause you don't care
Every time someone pulls the trigger I say, "I told you"
Everyone can tell that we're killing ourselves lately, everyday
Why can't you see it that way?Well I just want you to say
Hey, will you let me know where I gotta go?
Hey, will you let me go where I gotta go?
Hey, will you let me know where I gotta go?
Hey, will you let me?How many times till you take them away? I'll scream all day
Helpless death and the hopeless life, don't we feel forsaken?
Everyone can tell that we're killing ourselves lately, everyday
Why can't you see it that way?Well I just want you to say
Hey, will you let me know where I gotta go?
Hey, will you let me go where I gotta go?
Hey, will you let me know where I gotta go?
Hey, will you let me know, know?I'm leanin' on you, leanin' on you
Yes, I'm leanin' on you, leanin' on you'Cause I'm here
Will you let me know where I gotta go?
Hey, will you let me go where I gotta go?
Hey, will you let me go where I gotta go?
Hey, will you let me know, know?Leanin' on you, leanin' on you
