What Can I Say

Shealeigh

You
Treat this like a game, but it's my heart,
And it's breaking, all because of you
The hourglass is running out and you're still trying to fill it up
But I lost hope
You should, too

But this situation we're repeating
Over-rated is you've made it
I'm all done
And now I'm all out of time

[chorus]: What can I say?
What can I say
When all you do is
push me, Away
What will I say, to you
When it all comes, down to it
Seems like with every word we say
We're slowly fading away

You acted like you care
But you don't, stop pretending,
Cause your're hurting me
My first impression disapear
You're tongue-tied words so insincere
You always do, as you please

But this situation we're reapeating
Overated is what you made it
I'm all done and now I'm all out of time

[Chorus:] What can I say?
What can I say.
When all you do is, push me away
What will I say to you when it all comes down to it
Seeems like with every word we say

We're slowly fading away,

I can't talk to you (talk to you)
You never see my point of view
No, like i want you to (like I want you to, woah)
Feels like I always go unheard
Because your action speak louder than my words
That's why I always come back to

[chorus]: What can I say?
What can I say
When all you do is
(When all you do is)
push me, Away
What will I say, to you
When it all comes, down to it
Seems like with every word we say
We're slowly fading away

(What can I say?)
I'm fading away
(What can I say?)
I'm fading away,Away
Cause it's my heart
And it's breaking all because of you
What can i say
