Jigsaw

TakÃ©nobu

My heart's like a jigsaw puzzle, pick it up and fix it for me
Can you figure it out, figure it out?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Are you listenin' now, listenin' now?
So I'm smoking like a chimney
I feel fucked up, I got too much drink in me
It's a shame that you can't be around
I got you on mind, I got shit on my mind
I got plenty of time to just sit and rewind
And just call up your line and sip on my wine
'Cause this is bugging me out and I wish you were mine
I went too far, stole your car
Messed about but heard me out
Didn't mean to scream and shout
But won't you forgive me now?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Can you figure it out, figure it out?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Are you listenin' now, listenin' now?
So I'm kinda pissed off
I miss the way that we use to get off
And the way that you held my hand
When the fruit was dropped
That's all gone, now I'm feelin' kinda lost
I got you on mind, I got shit on my mind
I got plenty of time to just sit and rewind
And just call up your line and sip on my wine
'Cause this is bugging me out and I wish you were mine
I went too far, stole your car
Messed about but heard me out
Didn't mean to scream and shout
But won't you forgive me now?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Can you figure it out, figure it out?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Are you listenin' now, listenin' now?
My heart's like a jigsaw puzzle, pick it up and fix it for me
Can you figure it out, figure it out?
My heart's like a jigsaw puzzle, pick it up and fix it for me

Are you listenin' now, listenin' now?
