When i get you alone

Blaine

Oh yeah
Baby girl, where you at? Got no strings, got men attached
Can't stop that feelin' for long no
You makin' dogs wanna beg breaking them off your fancy legs
But they make you feel right at home, now
See all these illusions just take us too long
And I want it bad because you walk pretty
Because you talk pretty 'cause you make me sick
And I'm not leavin', till you're leavin'
Oh I swear there's something when she's pumpin' asking for a raise
Well does she want me to carry her home now?
So does she want me to buy her things?
On my house, on my job, on my loot, shoes, my shirt
My crew, my mind, my father's last name?
When I get you alone
When I get you you'll know baby
When I get you alone
When I get you alone now
(It's all mine)
Come on oh yeah yeah
Baby girl you da shit that makes you my equivalent
Well you can keep your toys in the drawer tonight, all right
All my dawgs talkin' fast ain't you got some photographs?
'Cause you shook that room like a star, now yes you did, oh
All these intrusions just take us too long
And I want you so bad because you walk city
Because you talk city 'cause you make me sick
And I'm not leavin', till you're leavin'
So I pray to something she aint bluffin', rubbin' up on me
Well does she want me to make a vow? Check it
Well does she want me to make it now?
On my house, on my job, on my loot, shoes, my voice
My crew, my mind, my father's last name?
When I get you alone
When I get you you'll know baby
When I get you alone
When I get you alone now
(It's all mine)
Oh no, get you alone baby

Oh oh oh oh that a girl! You get some
All these intrusions just take us too long
And I want you so bad because you walk pretty
Because you talk pretty 'cause you make me sick
And I'm not leavin', till you're leavin'
But I pray to something when she's pumpin', rubbin' up on me, now
Want me to break it down? Check it
Well did you want me to make it now?
On my house, on my job on my loot, shoes, my voice
My crew, my mind, my father's last name?
When I get you alone
When I get you you'll know girl
When I get you alone
When I get you alone now
(It's all mine)
I get you alone
When I get you alone
I get you alone
When I get you alone
(It's all mine)
Yeah
