Open up the doors into my mind
Fill me up with colors
So strong and refined
Go into the place that we call
A paradise
Where everything around you and I
Is aliveFalling through the memories to explore
I could not imagine what I was looking for
You, you're just a presence of something
Before
Never mind the sadness you're bound to
Adore
All again there is nothing wrong
I'm floating in the ocean for days
Hoping to find myself again
So I dive beneath the wavesShow me down the path you know is right
Now I'm just a traveler
Who's lost in the night
I can't tell the darkness
Apart from the light
Reaching for some substance
With all of my might
Running through the memories I explore
Struggling to imagine what I was looking for
Counting all the places where I stood
Before
Til I came upon you as I walked through
The doorSave me, oh my will
Save me, ever still
Won't you save me? Oh my will
