

I'm from Long Beach

Snoop Dogg

(Intro)

You know I'm tuned in with the best from the 213

This is DJ LOS

This is Long Beach moving Y'all

Get ready, get ready, get ready

Turn up(Chorus)

Ni**a when we ride on them haters

Ni**a when we slide, motivation

If you wanna find me, come to Long Beach

213 is where I be at(Verse 1)

Beach city, beach city, that's my claim to fame

Bring the misses, while I'm twisting, standing in the rain

I'm in the mixing game, all my joints get fit to pain

And I gripped the cane and I gripped the grain

And I only came to spit the game

Straight up out that Long Beach to Strong Beach

Sneak baby in the party with that long heat

At the wrong beach to play with

Stay with that mossburg, that AK

That chop-chop that whoop-whoop

That's spray day, that's mayday

Snoop do what he want to

I will do and I won't do

Slide up, ride up, fired up when I dump two

Now all it takes is one line but thanks to it flipped out

Long Beach, east side, yes sir we crippled out(Chorus)

Ni**a when we ride on them haters

Ni**a when we slide, motivation

If you wanna find me, come to Long Beach

213 is where I be, off of Long beach

213 is where I be, off of Long beach

If you wanna find me, ni**a come to Long Beach(Verse 2)

Classics, ain't giving out no passes

Get low or get gone you gonna end up getting blasted

So plastic it's drastic, but I'mma keep doing my part

I was raised up on the east side, born and bred at king park

After dark, no hooks, no marks, all G's

Dipped through the funk out and I graduated with all Cs

Sold dope and I made bread, never switch and that's real s**t

Stay down from the playground and I always represent 20 crip
I'm so cool, old school when I paint pictures like Shoku
Ask anybody not just the homies, Snoop Dogg he been a fool
I really do I got heart and I got smart
Bad part, don't panic I'm on Atlantic
And yep, yep I got the Cannon(Chorus)
Ni**a when we ride on them haters
Ni**a when we slide, motivation
If you wanna find me, come to Long Beach
213 is where I be, bi**h off of Long beach
Ni**a when we ride on them haters
Ni**a when we slide, motivation
If you wanna find me, come to Long Beach
213 is where I be, off of Long beach
