Go On Without You

Shirley Murdock

Before you left me, I had it all
You were with me, and that was enough
He came along, and I forgot all about you
I was a fool, but I'm wiser nowBecause you left, my world came to an end
Then you came back again, now I know
There is no way that I can go on without youA precious love, you took from me
Opened my eyes, and now I can see
A one night affair, can be so unfair
But I paid the price, so I'm wiser nowBecause you left, my world came to an end
Then you came back again, now I know
There is no way that I can go on without youBecause you left, my world came to an end
Then you came back again, now I know
There is no way that I can go on without youNever again, will I let you go, now that you're home
I missed you so, I love you forever
'Cause you've earned my love
And I just wanna say it's because of you, I'm wiser nowBecause you left, my world came to an end
Then you came back again, now I know
There is no way that I can go onYou left, my world came to an end
Then you came back again, now I know
There is no way that I can go on without you
I can't go on without you
