Good Lovin'

Crystal Waters

You give good lovin'
Good lovin', good lovin'
You give good lovin'
Good lovin', good lovin'You give good lovin'
Good lovin', good lovin'
You give good lovin'
Good lovin', good lovin'People stare while I'm walking down the street
If they would close their eyes they know this how it feels
You'll need my body more every time we meet
It's just the taste of love that we seekIt's little shiver and it's much too hot
It's the best desire than you're givin' me
It's a little quiver and it's much too much
It's the best desire than you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' meThis feeling pours from my head to my feet
My body churns and burns from the heat
As I remember I tremble from the strain
Forever your love'll be locked in my brainIt's little shiver and it's much too hot
It's the best desire than you're givin' me
It's a little quiver and it's much too much
It's the best desire than you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' meBack and forth eyes smile at me
And the taste of your tongue is oh so sweet
Your mouth opens wide as our body locks
I feel the pleasure and the treasure from the startIt's little shiver and it's much too hot
It's the best desire than you're givin' me
It's a little quiver and it's much too much
It's the best desire than you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me

You give good lovin', that's what you're givin' meYou give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' me
You give good lovin', that's what you're givin' meYou give me, you give me
You give me, you give good lovin'
You give me, you give me
You give me, you give good lovin'You give me, you give me
You give me, you give good lovin'
You give me, you give me
You give me, you give good lovin'You give me, you give me
You give me, you give good lovin'
You give me, you give me
You give me, you give good lovin'You give me, you give me
You give me, you give good lovin'
You give me, you give me
You give me good lovin', good lovin'
