

# The Minus Times

## Isis

[partial word version]Minus  
It's the minus times  
Minus timesBitter serum and sting rays  
Breathe in water through the punctured throat  
Scars like rope  
Cold to the touch  
Crash is the wish  
Shards in our eyes  
Hands around the throat  
Caffeine in my veins  
Coals from your mouth  
Blisters on your tongue
