Man Needs Woman

Bad Company

Hot damn, I'm down on my knees
I want to love someone please me
Come on baby I want to be in love againLonely nights give me the blues
I've had enough of loving and losing
Come on baby and hit me like a hurricaneEvery man needs a woman
Every woman needs a man
Do my best to try to make you understandBad luck don't get in my way
Pretty woman you can save me, yeah
Come on baby and take me up to heaven aboveTreat me right give me a chance
I'm looking for a sweet romance
Come on baby and hit me like a hurricaneEvery man needs a woman
Every woman needs a man
Do my best to try to make you understandHit me, hit me
Come on babyHot damn, I'm down on my knees
I want to love someone please me
Come on baby I want to be in love againNow every man needs a woman
Every woman needs a man
Do my best to try to make you understandEvery man needs a woman
Every woman needs a man
Do my best to try to make you understandEvery man needs a woman
Every woman needs a man
I'll do my best to try to make you understandEvery man needs a woman
Every woman needs a man
I'll do my best to try to make you understand, yeahTreat me right
I wanna be in love again
