Black Chrome

Turbonegro

My wheels are on fire
I can't get higher
I've got my metal and my gum
Gonna ride Gun City
Just for fun babyBlack chrome, you want me to fry
Black chrome, but I'll never die
Black chrome, tour of annihilation
Black chrome all across the nationAll across the nation
Brand new sensation
Heavy excitation
Hyper ventilationDeath row, I'll ride to the end
Death row, no more laws to bend
Death row, you would like to see me fry
Death row, but I'll never die
