Lost Years

Suicide City

I've lost years
You're not a beautiful person
no healthy mind no sweet little thing
no prize for the lies you're not human

I've lost years everyday for too long
I've lost years everyday our past is gone

You're not the best friend to have
or my companion let go of my life
free me again help never comes

I've lost years everyday for too long
I've lost years everyday our past has gone

Free me again help never comes
