Ladylike

Rock Star Supernova

So when she lays down it'll be
With me
Lord, she'll lay down with me
And when she walks out it'll be
On me
Lord, she'll walk out on me
When she kneeling it'll be
For me
Lord, she's kneeling for me
And if I need you to be secure
It's cause I'm not
You're so ladylike and more
When she focused it'll be
On me
Lord, she's focused on me
And if she walks with it'll be

With me
She's walking with me
And if I need you to be secure
It's cause I'm not
You're so ladylike and more
If she wishes it'll be
On me
Lord, she's wishing on me
And when she's hopeless
Lord, she's hopeless with me
And if I need you to be secure
It's cause I'm not
You're ladylike
I need you to be secure if I'm not
You're ladylike and more
