Balloon Ride

Relient K

There were times in my life
When I was confused
There were things between me and God
That were blocking my viewSo I prayed, "Oh dear Lord
Take these things away so I can see"
He answered my prayer
And at the sight of Him I fell to my kneesAnd until I went onto that fateful trip
Thought that I was on a sinkin' ship
Until I went onto that fateful trip
Thought that I was on a sinkin' shipUntil, I went on a balloon ride
I can see everything from up there
I went on a balloon ride
And now everything seems clearI went on a balloon ride
I can see everything from up there
I went on a balloon ride
And now everything seems clearI strive towards infinity
Though sometimes I don't know what to do
When other people laugh at me
All I do is look towards YouWell, on my way, through this life
Yet something was gone
I looked round and round
And then I found I needed someoneSo I prayed, "Oh dear Lord
Fill me up and make me whole
Presentin' my life
Jesus Christ, save my soul"And until I went onto that fateful trip
Thought that I was on a sinkin' ship
Until I went onto that fateful trip
Thought that I was on a sinkin' shipUntil, I went on a balloon ride
I can see everything from up there
I went on a balloon ride
And now everything seems clearI went on a balloon ride
I can see everything from up there
I went on a balloon ride
And now everything seems clearI went on a balloon ride
I can see everything from up there
I went on a balloon ride
And now everything seems clearI went on a balloon ride
I can see everything from up there
I went on a balloon ride

And now everything seems clear
