Don't Say a Word

Flora Purim

1. Donâ€™t say a word darling tonight
I for ready herded noth
Well be no more conversation
But to tries intravilations
If the word out side
Now that try near, holding me tide
Suddenly itâ€™s clear to me
This is absolute profection
Just to trine in the reflaction of my loverâ€™s eyes.

2. There so much time in the day for chatter
That doesnâ€™t matter any more
For silent clear we are breaking free
As weâ€™re begin to fall right in to love
Tune after light love is sweet discovery
When you kiss me in the quiet
Better harry dear in try it
But donâ€™t say a word
