What About Us?

Mr. Lif

Look into my mind
There's version of you
I cannot sleep at night
For fear of the truth oh
Should I take the blame
Or should I stand in your way
Or is it too much too late
Look into my eyes
I'm dazed by the light
It took me by surprise
Your sadness last night
Maybe it is fate that
We made this mistake
Now it's too much too late
What about us
Are you scared enough
That you need someone to run to
What about us
Are you strong enough
To throw the dream away

What about us
Are you scared enough
That you need someone to run to
Reality come back to me
Look into the past
Reflect on the pain
Did we move too fast
While feelin' the strain
Why are we feelin' this hate
Now it's too much too late
What about us
Baby got to realise
Ooh come on you know
You got me hypnotised out to control
Got no soul at the stage of the game
The danger of the roll of the dice playin'
Around with our lives
Makin' all the decisions no alibis

Let's feel the flow come on lock the door
Don't cuss 'n' tell me some
I wanna know about us
