Keep Mediocrity At Bay

Van Morrison

You gotta fight every day to keep mediocrity at bay
You got to fight every day to keep mediocrity at bay
Got to fight with all your might not to get in the bleeding heart's wayYou got to fight for your rights, you can't bury your head in the sand
You gotta fight for your rights, you can't just bury your head in the sand
Politics and religion, superstition go hand in handWell you're going through the motions
And they can't hear a word you say
Well you're going through the motions
They don't want to hear a word you say
Got to keep boredom at bay and keep mediocrity awayGot to fight every day to keep mediocrity at bay
Got to fight every day to keep mediocrity at bay
Got to fight with all your might not to get in the bleeding heart's way
