Try A Little Harder

Santana

Try a little harder now
Try a little harder now
Try a little harder now
Try a little harder now
No one said it would be easy
Doin' whatever you do
You just might have to suffer
But keep on movin' right through
You got to
Try a little harder now
Try a little harder now
Try a little harder now
Try a little harder now
Sometimes you have to change your tune

To get where you want to be
But don't you let that satisfy you
You can have all you can see
If you just
Try a little harder now
Try a little harder now
Try a little harder now
Try a little harder now
Come on, everybody
Try a little harder now
Try a little harder now
Try a little harder now
...
