The One For Me

Joe

Ah yeah
You might be getting real funky
Just drop a dime like thisTen, nine, eight, seven, six, five, four, three, two, oneCome on, getting funky now
This is another black hand smash
Yup yup you all
And we're going to kick it something like thisBaby, you're the one for me
Baby, you've got me going crazySaw you from a distance
You barely caught my eye
Your body's outrageous
Girl, you blow my mindWe had a conversation
I knew it right away
With you for a lifetime
Is where I want to stayBaby, you're the one for me
Your love is the answer
You're everything I need
Baby, you've got me going crazy
Need more of your lovin'
Give it all to meListen baby
These vibes they are building
For you I can't contain
Girl, everything about youIs driving me insane, you want, girl
The way you wear your hair
You've got it all together
Is something very rareWell now, baby
One thing about you
You know I can't deny
You've got it all togetherYour attitude, girl
You've got me in the mood, girl
You've got it
I'm going crazyGive it to me come onBaby, I'm going crazy
You've got to be the only one for me
Your love is the answer
You're everything I needBaby, I'm going crazy
You've got to be the only one for me
Need more of your lovin'
Give it all to me
