I Hope She Comes Around

Sixwire

I've given all I can
But all I get for givin' all I've got
Is knowing how in love I am
And how strong I'm notShe knows the way I feel
Sometimes it feels like I'm breakin' ground
But she can't believe that I'm for real
I hope she comes aroundI try to have faith
And I say it'll all work out
I try to keep my spirits up
While my defenses are all downI try to rely on luck
But I know it may be runnin' out
And all I can do now
Is hope she comes aroundI've waited all I can
A silent phone is a lonely sound
It's making me a lonely man
I hope she comes aroundI try to have faith
And I say it'll all work out
I try to keep my spirits up
While my defenses are all downI try to rely on luck
But I know it may be runnin' out
And Lord I can do now
Is hope she comes around, yeahI dream of holding her
I close my eyes and she's here some how
So I'll let the Porch light burn
I hope she comes aroundI try to have faith
And I say it'll all work out
I try to keep my spirits up
While my defenses are all downI try to rely on luck
But I know it may be runnin' out
And all I can do now
Is hope she comes aroundHope she comes around
Hope she comes around
Hope she comes around
