You'll Come Down

Toadies

Give me back my legs
I want to walk like I did
You stole away my breath
Floating over my head
Do you lead me on
With your fingers across my back, well
When I drag you down, you will sink like an anchor
You will, like an anchor, yeah
You'll come down on my side
You'll come down in good time
You'll come down on my side
You'll come down
And as I'm falling out of the sun
Back to where I feel safe again
How did I come undone
Trying to save my own skin

I want to be your hero
I want to show you the good life, the good life, yeah
I want to touch your face before you sink like an anchor
You will, like an anchor, and you
You'll come down on my side
You'll come down in good time
You'll come down on my side
You'll come down
You'll come down
You'll come down
You'll come down
You'll come down on my side
You'll come down in good time
You'll come down on my side
On my side, on my side
You'll come down
