H20

Darren Emerson

Upper body, might work for that
But you ain't a model where your focus at
Know too many broads, going way too hard
So have a glass of water for your thirsty ass
Like that, your thirsty ass
Know it's a problem and we notice that
You be goin' too hard and never know when to stop
Have a glass of water for your thirsty ass
Like that, your thirsty ass
Know it's a problem and we notice that
You be goin' too hard and never know when to stop
Have a glass of water for your thirsty ass
Like that
