So Far

Chelsea Lee

Since youre gone Im on my own
This house is haunted its not my home
The rooms are empty and the lights are out
When you left me can you hear me now?
Why you gotta go so far
Why you gotta keep me up here wondering where you are
Why you gotta go so far
Ill forget you if I could and Im doing pretty good, so far
Time is deadly, and its so slow its out to get me when Im alone
Slow and steady itll come thorough
Till Im ready to let go of you
Why you gotta go so far
Why you gotta keep me up here wondering where you are
Why you gotta go so far
Ill forget you if I could and Im doing pretty good, so far
I was thinking I could take it but I didnt know how long
So far
So now Im thinking I should just move on
Why you gotta go so far
Why you gotta keep me up here wondering where you are
Why your gotta go so far
Ill forget you if I could and Im doing pretty good
Why you gotta go so far
Why you gotta keep me up here wondering where you are
Why you gotta go so far
Ill forget you if could and Im doing pretty good
So far
Slow and steady, itll come through
Till Im ready to let go of you
