Civil Disobedients

Capdown

We're sick of life this way when the ideas on which it's based are so untrue
We address things you say but then you've never got the guts to follow through
We will take you on
We will unite to be strong
And then we're comin' after youWatch out for the civil disobedientsWelcome to the world of the civil disobedients
You've made your choice now it's time to face the consequence
Welcome to the world of the civil disobedients
We're about to attack so you better plan your defence
