# Get Out of My Way

## Void

Word of mouth
im starting fires that
you'll never be able to put out
town by town
i strike a match
and then i watch that city burn to the ground

hey, you want to reach out and take it
hey, you want to make it on your own
get up and get with me
get with me or get out of my way

get out of my way

round and round
your head is spinning
but you still can't seem to figure me out
won't back down
that's the only reason
i'm up here and your in the crowd

hey, you want to reach out and take it
hey, you want to make it on your own
get up and get with me
get with me or get out of my way

get out of my way
