

# A Song For You

Celine Dion

I couldn't live, I couldn't live without your love  
For one kiss, well I'd give everything up  
There's no words that can describe  
What I feel deep inside so I let this song say it all  
Then I hope you'll understand  
Once you've listened till the end  
Heard the music in my head  
So before I could forget  
I start singing, yeah I was singing  
This song for you, just made up the words  
Na na na na, ooh yeah  
My heart was the melody  
So I can sing this song for you
