

# Fall Upon Me

## Poi Dog Pondering

-----

Fall upon me in my quiet pain  
fall upon me, again and again

    Across wide open fields  
    and grass down of green

I'm awake but my head is in the air

Wide awake, take me walking into the cold cold air.

    Fall upon me like a hundred flowers

    Fall upon me like the masseuse of hours

        Give me the breath of life  
        from your loving chest.

    Fall upon me in the pouring rain

        Wet my lips again and again

    Give me the grace of your finger tips

        fall upon me.
