# Classic Girl

## Deidre

4:05 in my neighborhood
When shots go off, no one bothers
A pop and a reply pop and no reply
Dinosaurs on the quilt I wore with a girl
Such a classic girl
Such a classic girl
Such a classic girl
Gives her man great ideas
And hears you tell your friends, "Hey man
Why don't you listen to my great idea?"
It's true
I am a villain when you fall ill
That's probably because
Men never can be, not like a girl
Such a classic girl
Such a classic girl
They may say, "Those were the days"
But in a way, you know for us these are the days
Yes, for us these are the days
And you know you're my girl
Such a classic girl
Such a classic girl
You know for us these are the days
