Human

Aquilo

Human, behave yourself
You have burst at the seam
Let it all fall out, open your mouth
Often I lie wide awake, think of things
I can make but I don't seem to have
The parts to build them
Human, I wonder why you're a better
Make than I could ever build or create
You know not love or hate
I am so scared of what will kill me
In the end for I am not prepared
I hope I will get the chance
To be someone to be human
Look what we've done
Look what we've done
I would give my life to be human
I would give my life to be human
I would give my life to be human
I would give my life to be human
Human, I'm trying to come clean
I will be a better me
I will not drink until I'm dead
I'll make the most of it
I don't know what it's like to be alive
To say goodbye, to cry a thousand tears
Because my ears won't listen
Human, I'm trying not to lose my faith in you
I've sassed out all that
I've seen through, I've sailed an ocean
I am so scared of what I'll look like
In the end for I am not prepared
I hope I will get the chance
To be someone, to be human
Look what we've done
Look what we've done
I would give my life to be human
I would give my life to be human
I would give my life to be human
I would give my life to be human

I used to hear it all so loud
The sound of my heart breaking
The truth is waiting to be found
I trust that I will take it
I would give my life
I would give my life, human
I would give my life, human
I would give my life, human
I would give my life to be human
I would give my life to be human
I would give my life to be human
I would give my life to be human
