Chola

Sir Dyno

The chola, confessing all my love to you.
The chola, confessing all my love.

The chola saw vato all cressed down
Shaved head in her small barrio town
Simon cuz the vato saw her too
And didn't think twice about lookin cuz she was beautiful.
Orale she's firme and the chola thought the same
Cuz this was the vato she saw in her dreams ya know what i mean
As he slowly introduced himself
Mija I wanna know you but I never wanna hurt you
See i'm the one you should run from and don't look back
She couldnt help it and now there a couple.
And who's in trouble the chola's in the mix
She didn't care about nada as the cholo kept bullet licks
Filled with hits hittin vato's up daily
And bangin to the fullest no askin for maby's
But a nice surprise I brought you a single rose
I love yo my cholita as he held her close.
(Chorus)
The chola, confessing all my love to you
The chola, confessins all my love to you
The chola, confessing all mt love to you
The chola, confessing all my love to you
The chola, confessing all my love

It's me and you porvida as he lifted his shirt
Simon he tottooed her name on his chest close to his corazon
She couldn't help it she began to cry
She drempt he died and didn't understand why
He said don't trip mi amor nada's gonna happen
Vatos start plato then I'm the one blastin
And for you I would lay down mi vida
Your my everything my night and my day mija
But he got caught up
So now the cholo got sent up
Got a year in the pinta for a shooot em up
He lost his chola forever
Drove him crazy to think

She wrote him everyday with tears blurring the ink
She loved him and she'll wait
He wrote back that it was a mistake
Don't stop your vida for me I'm a lost cause stay away please
But she kept on writing until the day of his release

(Chorus)
Months have passed sense they have seen eachother
As he hugged her and he kissed her and he hugged her
He couldn't believe she waited
So he loved her more than life it's self
More than wealth More than his health
He looked at her neck and saw his name tatted on the side
He said look that's there porvida
She said that's how we ride
Show for her first pulled out a cutet for her man
I'm down till the wheels fall off
till the very end
Orale mija but I wanna start a life
All this vida loca forget it
I want you to be my wife
I had alot of tiempo to think
Then he heard some foot steps
As he turned to see an enemy with a cuete
With no hestiatin his chola jumped in front of the valla
And like nada she died Oh GOD
The enemy laughed if you move i'll kill you too
My barrio don't hear you cry so don't be a fool
He looked down at his chola as a tear fell
Her blood cryed
The sound of a church bell
Then he attacked knowing he would die
Happy to hear the shot's
To lye by his chola's side

(Chorus)
