Never Wait

Jerry Leger

Once upon a time
You were hung up on lines and rhymes
To turn your heart into thoughts
Did you need a special key
To open up the gates
For to take, take back your life
Just a key to take back your life
I saw you drifting but I stayed away
I've got problems of my own these days
All along the shore I've seen you give it all
And never wait, wait for your lover
Never wait for something good
Never love like you should
Never know until it's all gone
I'm not practicing the arrow
I'm not spying like a fool
I'm not saying what you might be missing
Taps will play by the grave of your paranoid state
