Next Time

BBMak

Huu, huuI lie awake and die, I try but can't deny
That I can't make it without her
I can't forget the day, I let her slip away
And I'm still dreamin' about her
Can a heart forgive?
'Cause I just can't live without herThe next time you see my girl
Won't you say that I, I would die
I would die to hold her
The next time you see my girl
Won't you tell her, I love her
The next time you see my girlMaybe a next time
(Next time)
HmmI walk the streets at night, see lovers passin' by
And it's all a reminder
Of what it used to be, when she was here with me
I only wish I could find her
Did she disappear?
(Disappear)
'Cause I'm waitin' right here for herThe next time you see my girl
Won't you say that I, I would die
I would die to hold, her
The next time you see my girl
(See my girl)
Won't you tell her, I love her
The next time you see my girlI close my eyes, I see her face and realize
(Close my eyes)
(She was there)
But in front of me, I had it all but I set her free
So next time you see my girl
Ohh won't you tell her that I'm sorry
An' tell her, I love her(The next time you see my girl)
The next time you see my girl
(See my girl)
Won't you say that I, I would die
I would die to, hold, her
The next time you see my girl
(See my girl)
Won't you tell her, I love her
The next time you see my girlThe next time you see my girl

(See my girl)
(Ya ya, won't you tell her that I love her)
The next time you see my girl
(See my girl)
(Oh ,oh)
The next time you see my girl
(The next time you see my girl)
(See my girl)
(Won't you tell her that I love her, oh)
Won't you tell her, I love her
(The next time you see my girl)
The next time you see my girlThe next time you see my girl
(Oh)
(The next time you see my girl)
The next time you see my girl
(Oh)
(Oh you know what I mean)
The next time you see my girl
(Oh)
Won't you tell her, I love her
(The next time you see my girl)
The next time you see my girlThe next time you see my girl
(Oh)
The next time you see my girl
(Oh)
(See my girl)
The next time you see my girl
(Oh)
Won't you tell her, I love her
