Down In Black

Mustasch

Don't take me out tonight
I feel afraid of life
You won't be needing me
Cause I'm so sick and tiredI just wanna die
I don't think that I'm aliveIt's a long way back
When you're down
It's a long way back
When you're down in blackGet down, take cover now
I'm gonna bring myself to live
I'll run, to get it on
Into a place I've never been
Blue sky and city lights
Yeah I'm coming inUsed to be so slow
I didn't know where I should goIt's a long way back
When you're down
It's a long way back
When you're down in black
