A Different Party

Jordan Knight

Oh yeah, alright, yeahI don't know the way that you want this to go
Baby, I'm so sick and tired of playin' your games
If you say the word, I'll be there, soon as it's heard
Maybe I'm wasting my time working on youI'll do my best to show you that I'm the one to hold you
Sometimes you make me lose my mindWe can all go to a different party
Dancin' in the streets with some girls from Maui
We can all rock at the Deja Vu and you know how we do itI just want you to start shaking your body
Times are gonna change, girl you know I'm naughty
I know you'll go, I'll go, so go with so many lovers so many offers
To be all over you ain't part of meYou won't believe all of the tricks up my sleeve
Baby you so hypnotize me with your eyes
I'm in control, long enough to let you know
I'm getting old, wasting my time waiting on youI'll do my best to show you, that I'm the one to hold you
Sometimes you make me lose my mindWe can all go to a different party
Dancin' in the streets with some girls from Maui
We can all rock at the Deja Vu and you know how we do itI just want you to start shaking your body
Times are gonna change, girl you know I'm naughty
I know you'll go, I'll go, so go with so many lovers so many offers
To be all over you ain't part of meIt's a different party party, girl shake your body body
It's a different party party 'cause you know I'm naughty naughty
It's a different party party so shake your body body
It's a different party party that's how we do it
Jimmy jamGonna get you in the grove, girl gotta get you in the mood
Up down, up down, gotta get up, get up, get down
Gonna get you in the grove, girl gotta get you in the mood
Up down, up down, spinnin' around and around til we hit the groundWe can all go to a different party
Dancin' in the street with some girls from Maui
We can all rock at the Deja Vu and you know how we do itI just want you to start shaking your body
Dancin' on the street, girl you know I'm naughty
I know you'll go, I'll go, so low with so many lovers so many offers
To be all over you ain't part of meWe can all go to a different party
Dancin' in the streets with some girls from Maui
We can all rock at the Deja Vu
And we know how to do itI just want you to start shaking your body
Dancin' on the street, girl you know I'm naughty
I know you'll go, I'll go, so low with so many lovers so many offers
To be all over you ain't part of meIt's a different party party, gotta shake your body body
It's a different party party 'cause you know I'm naughty naughty
It's a different party party so shake your body body

It's a different party party, that's how we do it, do it
