I can't be more than I'm already am
I'm terrified
Come with me I love you To the beat to the floor to the hardcore
Take it there everywhere you're in our law
The bassline is the rumble
Shout it out to the concrete jungle
Don't sweat it no way
Forget it okay
Here is the next viking
Cheers through the pilgrim's chin
Here we start with a brand new face
Nothing but ace gonna rock the place
I lose myself I lose control
Always time for a booty call
Don't sweat it don't wait
It's never too late
It's all about to change
Not tomorrow but today Woah!, woah
(Woah!, woah)
Woah!, woah
(Woah!, woah)
Riot! Blow out the place MC Ace
In your face without delay
A thousand days a thousand nights
Don't give up fight the fight
Don't sweat it no wait
Forget it okay
It's all about to change
Not tomorrow but today Woah!, woah
(Woah!, woah)
Woah!, woah
(Woah!, woah)
