Decemberween

Patent Pending

It's a long, long way to December.
I'll never really close my eyes,
Won't let you take me by surprise. Noooo
I'll leave no pages left unturned.
I'll leave no candles left unburned,
I'm gonna keep you by my side.Please don't fade away,
These lonely nights seem lonelier without you.
And if you fade away,
these summer days I'll never be the same.Jack be nimble, Jack be quick,
Please stop the car,
I'm feeling sick.
And I won't make this trip without you.
I've come a long, long way from home
I've come a long, long way for you
And I'm not leaving here alone.There's really no reason why
You gotta back it in and die
There's really no reason why
I'd rather see you smile than cryI know what I've been told,
But I've got december on my mind!I know that you dont like too
But if you could for just a while
Let me stare into your prefect eyes
Let me see your pretty smile
There's no place I'd rather be tonight
There's no face I'd rather have in sight
I wont let goNo, I won't let go [repeat x4]
