

# This Is Only a Test [Live]

## Acceptance

Sometimes they move faster  
Faster than our eyes  
Can tell the morning  
Can tell the morning Some days for us to test  
Each day we say our prayers to you  
We say our prayers for you  
What you want instead? These are the days that we came home  
Hoping for the best  
These are the days that we came home again  
I have to say that I love you  
And I love you still This lie is coming out  
Breaking bonds that hold us  
Throwing stones that hurt us You cried, you tried  
To tell us what we want to hear  
Is it something that you fear? These are the days that we came home  
Hoping for the best  
These are the days that we came home again  
I have to say that I love you  
And I love you still  
This is ever true After all you said  
Did you think it through?  
Did you think it through? After all you said  
Did you think it through?  
Did you think it through? These are the days that we came home  
Hoping for the best  
These are the days that we came home again  
I have to say that I love you  
And I love you still  
This is ever true
