Looking for Someone Like You

Kelly Willis

I've been around from town to town
I've seen a thing or two
I've been across this whole wide world
Looking for someone like youI was a fool when I let you go
I guess I never knew
That I would spend the rest of my days
Looking for someone like youWell, everyday I search in vain
I'll do anything to have you back again
Well, you don't know what I've been through
Looking for someone like youSpent some time with other guys
But that only made me blue
Now I know how hard it is
Looking for someone like youWell, everyday I search in vain
I'll do anything to have you back again
Well, you don't know what I've been through
Looking for someone like youI don't want to feel like this
Without you there's just emptiness
I was wrong but now I see
That you're the only one there is for meSo baby won't you please come home
I'll do what you want me to do
And then I'll never have to worry again
About looking for someone like youWell, everyday I search in vain
I'll do anything to have you back again
Well, you don't know what I've been through
Looking for someone like youWell, everyday I search in vain
I'll do anything to have you back again
Well, you don't know what I've been through
Looking for someone like you
Looking for someone like you
