Tell Me

Joan Armatrading

Call me any time
That you wanna call
Tell me anything
Make it big or small
I can take it or leave it
If you wanna stay in
I can take it or leave it
If you wanna go out
I know all of your secrets
And you're the same with me
I know where all the bodies are
Your secret is safe with me
Tell me anything
Tell me
Tell me
Tell me
Let our friendship survive
Bear the brunt of a storm
All I want you to do is callNot in front or behind
But right there by my side
When you need me just callYou rely on me
I depend on you
I can dare you on
You double dare me to
We can dare to be different
But at the same time
We must be different together
And when we were younger we would always compete
And the winner would taunt
Na na na na na na
Tell me anything
Tell me
Tell me
Tell me
While we're searching for love
Of the intimate kind
Our friendship will always beLook to the north star
See how constant it shines
Like the bond that ties us togetherLove is the answer

Love is what heals
Let's stay together
Friends
Love is the answer
Love is what heals
Let's stay forever
FriendsFriends foreverLet our friendship survive
Bear the brunt of a storm
All I want you to do is call
Call me anytime
That you wanna call
Call me day or night
I don't care at allI can take it or leave it
If you wanna stay in
I can take it or leave it
If you wanna go out
I know all of your secrets
And you're the same with me
I know where the bodies are
Your secret is safe with me
Tell me anything
Tell me
Tell me
Tell meLet our friendship survive
Bear the brunt of a storm
All I want you to do is callLet our friendship survive
Bear the brunt of a storm
All I want you to do is call
