The Vine

Tristam

Follow the vine
Count the leaves to the root
Trace back the lines
And you will find out the truth
Take back the time
That you have spent being lied to
And as you change, the days will follow
Every step you takeFollow the vine
Count the leaves to the root
Trace back the lines
And you will find out the truth
Take back the time
That you have spent being lied to
And as you change, the days will follow
Every step you take
