March Of Time

Arwen

Hours of lust and hours of tears passing by before my eyes
Today, tomorrow, yesterday one life
The days of joy, day of sadness come and go to pass me by
A month, a year, one hundred years, they fly
Oh, yeah I will be gone to lead another life
No, this world must stop to turn around with me
'Cause
Time marches, time marches
On without us all, never stops, yes
Time marches, time marches
On and on and on, flies eternally
Times of peace, times of fights, constant movement is our life
Can't stop no more, not until we die
We long for more eternity and maybe there's another life
This one is short, no matter how you try
Oh, never give up all the hope to lead a good life
No, don't waste your given time to make things worse
Time marches, time marches
One without us all, never stops, yes
Time marches, time marches
On and on and on, flies eternally
Please, please help me see, the best way to be
Make a change and we live eternally
No more wasted years, no more wasted tears
Life's too short to cry, long enough to try
Time marches, time marches
On without us all, never stops, yes
Time marches, time marches
On and on and on, flies eternally
