Break The Silence

Rex Goudie

So that's how it's gunna be,
To tired to scream.
Change is gunna come,
When all we do is sink into the sun.
Won't you come and rescue me?
I'm certain it will be
My time to face the music now
Happier the day is almost here
[Chorus:]Break the silence
The time has come to make a choice
Made a stand and use your voice now
Break the silence
Let the music free your soul
Scream until there's silence no more.
Always hiding you desire
Extinguishing your fire
Are you brave enough to face yourself,
Or are you just a slave to the machine?
When all you had wouldn't suffice
You took the hit to save a fight
Put a noose around your soul
To let it out you gotta scream into the night.

[Chorus:]Break the silence
The time has come to make a choice
Made a stand and use your voice now
Break the silence
Let the music free your soul
Scream until there's silence no more.
Break the chains
That hold your spirit and bind your soul
Take the stage and let it go.
So that's how it is, but I say change is
gunna come
Why must you always make me feel
Like nothings ever good enough for you.
[Chorus:]Break the silence
The time has come to make a choice
Made a stand and use your voice now

Break the silence
Let the music free your soul
Scream until there's silence no more.
Let the music free your soul.
Scream until there's silence no more.
