College Kids

Relient K

Someone please save us, us college kids
What my parents told me is what I did
They said go to school and be a college kid
But in the end I questioned why I didI'm poor, I'm starving, I'm flat broke, I've got no cash to spend
Sell all my books for front row tickets to Dave Matthews Band
My girlfriends at another school I know this year will test her
I called, found out she had three other boyfriends last semesterAnd thats why I say
"Oh no, not for me, not for me
Call it torture, call it university
No, arts and crafts is all I need
I'll take calligraphy
And then I'll make a fake degree"Eighty grand later I found out that all I had learned
Is that you should show up to take your finals and your midterms
The party scene is kinda mean, I think it's sick and twisted
The navy showed up at my dorm and claimed that I enlistedAnd thats why I say
"Oh no, not for me, not for me
Call it torture, call it university
No, arts and crafts is all I need
I'll take calligraphy
And then I'll make a fake degree"Don't get excited, she'll say no without a doubt you see
And I've decided college girls just wont go out with me
They make me nervous and they always catch me off my guard
Like cell phone service I drop out 'cause college is too hardIts time to call my father
'Cause it's his alma mater
Good grades aren't what they seem
I think he knows the deanIt's time to call my father
'Cause it's his alma mater
He said he's proud of me
But college always was his dream
And I would always say its not for meOh no, not for me, not for me
Call it torture, call it university
No, arts and crafts is all I need
I'll take calligraphy
And then I'll make a fake degreeSomeone please save us, us college kids
What my parents told me is what I did
They said go to school and be a college kid
But in the end I questioned why I didDo what will make you happy
Do what you feel is right
Only but one thing matters

Learn how to live your lifeDo what will make you happy
Do what you feel is right
Only but one thing matters
Learn how to live your life
