Get Out Of Here

Bored Nothing

I'm fading out
Like a melody
Adjusting around
To fit into
Your mould
Faith is a healer
But as time passes by I fall deeper
As I watch you keep on diggin' this hole
Stand in the ground
You paved for me
Figuring out
How to spring from
Your hold
Being mean (?) don't make me keener
Am I fooling myself I don't need ya
Watch this space I'm getting ready to go
(Chorus)
Wanna get out of here
Away from you
If it means dragging myself off my knees
That's what I must do-ooooo
Wanna get out of here
That's how I feel
Oh but the time that it takes me to leave (?)
When I've dug in my he-e-eels
I'm looking out

For a remedy
If I make mistakes
Can they be
My own
All my life I've been a dreamer
Now it's time to become a believer
If I have to I will do this alo-oone
(Chorus)
Oh you've gotta believe what I'm saying
I've gotta get out of heeere
I've gotta get out of he-e-e-ere
Gotta get out of here

Away from you
If it means starting all over again
That's what I must do-o-o-o-o-o-o-o-o
Gotta get out of here
Away from you
If it means me dragging my dragging my dragging myself
Dragging myself
Gotta get out of here
Away from you
If it means starting all over again
That's what I must do-o
Gotta get out of here
That's how I feel
Oh but the time that it takes me to leave (?)
While I dig in my he-e-eels
