Don't Forget To Breathe

Beulah

Once upon a dream, I was dying for you
Tating only sweet, drinking memories of you
Your hand touches my cheek as you whisper softly

Don't forget to breathe
Our love will be redeemed
And when you take my hand
You'll know exactly where I am

A toast to starry nights, seeking comfort divine
Celebrating life, swimming circles in light
And I look to the sea and hear you calling softly

Don't forget to breathe
Our love will be redeemed
And when you take my hand
You'll know exactly where I am

I hear you calling to me
See you but you can't see me
We never said our goodbyes
So dark and lonely your eyes
You'll always be in my heart
There is no death to us part

Don't forget to breathe
Our love will be redeemed
And when you take my hand
You'll know exactly where I am
You'll know exactly where I am
