One Endless Night

Jimmie Dale Gilmore

One endless night
So very long ago
Close as the moment
I held someoneTo be the last
To be the only one
For all and everything
One endless nightWhen you awoke
And told me of your dream
The waves that rolled across
The starry skiesAnd broke upon
Your heart and disappeared
And promised everything
One endless nightI see you now
And I suppose
Everything's changed and rearranged
But no one knowsThe why or how
Or if it might be
What depends on how it ends
One endless nightYour gift to me
Is nothing I can hold
The silence fades away
To find the songThis too shall pass
We two and everything
And this your gift to me
One endless nightThis is your gift to me
One endless night
