Core (In Time)

David Garza

Think like you haven't ever
Try to remember the days
When we would talk till the light
Before morningYour summer neck is burned
With salt and sand
I lost my fingers
Trying to find your old hands, yeahIn time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We could've been closer, closerThink like you haven't ever
Try to remember we're alive
I haven't slept for three nights
And I see things now, yeah yeahIn time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We could've been closer, closer yeahIn time maybe we'll discover
We could've been closer to the core
In time maybe we'll discover
We we could've been closer, closerAren't you gonna break my fall?
Aren't you gonna break my fall?In time
In time
In time
In timeIn time
(Try to remember we're dead)
In time
(Try to remember we're dead)In time
(Try to remember we're dead)
In time
(Try to remember we're dead)
In timeTry to remember the days
