Angel

Angel by aleesia
I can't figure this out
I'm stuck on this cloud
And I don't think I'm crazy
I am never coming downHe makes my heart pound
Yeah he's so amazing
I never thought somebody
Like you really existedClose my eyes and
Make a wish
He must be an angel, angelHe must an angel
Falling down, yeahHe must be an angel
Got me an angelF-F-falling from the heaven above
Take me with you
To, heaven (3x) yeahHe's always on cue he know just what to do
To, make me feel so good
And when he comes around
I'm all upside down
And I feel like I cant breath
And I feel like I cant breathI never thought somebody
Like you really existedClose my eyes and
Make a wish
He must be an angel, angelHe must an angel
Falling down, yeahHe must be an angel
Got me an angelF-F-falling from the heaven above
Take me with you
To, heaven (3x) yeahDon't know what he did
But I cant get him out
Of my mind
He must be an angel
